

MEETING PRESENTATIONS

- 06/08/11 A Unique High-sensitivity Bioassay Incorporating a Heterogeneously Catalyzed Redox Amplification Reaction. 22nd North American Catalyst Society Meeting, Detroit, MI, June 5-10, 2011 (Henry J. Gysling and Mark Leental, CatAssays, Rochester, NY)
- 10/03/12 A New High-sensitivity Modified ELISA Bioassay Incorporating a Heterogeneously Catalyzed Redox Amplification Reaction for the Dye Signal Generation, 38th Northeast Regional Meeting, American Chemical Society, Rochester, NY, September 30 - October 3, 2012 (Henry J. Gysling and Mark Leental, CatAssays, Rochester, NY)
